Full-Stack Developer | Python

CAREER OBJECTIVE

Aspiring full-stack developer with foundation in web development, data-driven applications, and cloud-based solutions. Proficient in Python, Django, JavaScript, SQL, and MongoDB. Seeking to contribute to dynamic software projects while continuing to develop professionally.

PROJECTS

E-commerce Website (Django)
- Built a robust eCommerce platform using Django, featuring product listings, cart functionality, and user authentication. oIntegrated a payment gateway and admin panel for order and inventory
- management.

Car Selling Platform (Django)
- Developed a car-selling platform where users can browse, filter, and purchase vehicles.
- Enhanced user interface with Bootstrap, ensuring mobile responsiveness. Leveraged MongoDB for
- faster query handling and efficient data storage.

Personal Portfolio
- This project involves creating a personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, and achievements in an interactive and visually appealing format.

EDUCATION

Bachlor of Commerce
- • Savitribai Phule Pune University (SPPU) — Pune, Maharashtra   **(2022-2025)**
